

RG59 Male BNC Crimp Connector

K3149

SKU: 2904

Karbon A/V RG59 Crimp Connector K3149.

BNC male crimp two piece connectors for RG59 coax cable are extremely popular for use by professional security installers. RG59 cable with BNC connectors are used in CCTV camera, SDI camera, HD-TVI camera, AHD camera, and other video installations. BNC crimp-on connectors provide a secure connection to RG-59 that will last forever when applied properly.

Features

- Easy crimp-on design
- Designed to fit quad-shield RG-59 video cables
- Suitable for Coaxial Networks Used in Video, Data and Telephony Applications
- Precision Machined Brass
