

## Motorized Drop Down & Swivel TV Mount

MM815

SKU: 145087

Offering perfected eye-level viewing that maximizes not only your TV picture quality but also your personal comfort and enjoyment, the MM815 Motorized Drop Down & Swivel TV Mount is an absolute showstopper. This mount is perfect for anyone who wants a home theater experience in any room they're watching TV. The MM815 ushers in a new standard for home entertainment enthusiasts!

Now you can bring your large flat-screen TV down off the wall to the perfect height and swivel it left or right with just the push of the one button.

The award-winning MantelMount presents a first-of-its-kind consumer motorized, remote-controlled TV mount for high on-the-wall installations, such as over a fireplace.

Offering perfected eye-level viewing that maximizes not only your TV picture quality but also your personal comfort and enjoyment, the MM815 Motorized Drop Down & Swivel TV Mount is an absolute showstopper. This mount is perfect for anyone who wants a home theater experience in any room they're watching TV. The MM815 ushers in a new standard for home entertainment enthusiasts!

### Distinguishing Features Include:

- **AUTOMATIC DROP & SWIVEL:** Patented, proprietary software, and precision electronic actuators lower and swivel the TV quickly and automatically through the use of 2 Memory presets on the remote control.
- **RF REMOTE CONTROL:** No need to point at a receiver with the included RF remote.
- **SILENT OPERATION:** Custom electronic actuators allow for smooth, barely audible movement.
- **OPTIONAL RECESSIBLE HOUSING:** Conceals the lifting arm and electronics in the raised position. Can be recessed for 1.75 flush-to-wall installations (RB100 accessory required)
- **VISUAL TEMPERATURE SENSOR:** Height adjustable heat sensor changes to a Red color at temperatures above 110° F to warn users if the fireplace is too hot for the safety of electronics.
- **SOFT & HARD TRAVEL STOPS:** Vertical and horizontal travel limits configured through both software and hardware provide a virtual safety shield that prevents the TV from touching the wall or mantel.
- **PATENTED CENTERING CAMS:** Centering Cams automatically swivel the TV to the center while raising to avoid permanent obstacles.
- **SWIVEL SAFETY CLUTCH:** Friction clutch that Automatically disengages during Horizontal movement to avoid damage if the mount swivels into an object.
- **TILT ADJUST:** Fine-tune the tilt to keep the perfect angle.
- **POST-INSTALLATION LEVELING:** Allows for screen position refinement after the mount is installed.
- **PAINTABLE WALL PLATE COVERS:** Paintable to match your wall color.
