KLEIN TOOLS

Scout Pro 2 LT Tester Remote Kit

VDV501-825

SKU: 4399   UPC: 92644581984

Features

- Tests voice (RJ11/12), data (RJ45) and video (F-connector) coax connections
- The self-storing Test-n-Map Remote (#1) tests, maps and IDs a cable run in a single step
- Utilize the 19 LanMap and CoaxMap Location Remotes to identify cable runs
- Test for open, short, miswire or split-pair faults
- Measure cable length up to 2000 feet (610 m)
- Trace cables, wire pairs and individual conductor wires with the Tone Generator (functionality requires an analog tone tracing probe not included)
- Other features include: voltage warning, shield detection, auto power off, low battery indicator and a self-storing remote
- Carrying case has custom-designed compartments to hold tester and accessories securely
- Kit includes: 1 Scout® Pro 2 Tester, a self-storing Test-n-Map Remote #1, 1 LanMap Kit with 19 RJ45
- Location Remotes, 1 CoaxMap Kit with 19 F-connector Location Remotes, 1 coax barrel F adapter, 1 carrying case, manual and 9V battery
