## 9-Port Gigabit Unmanaged Switch

G1109P-8-102W

SKU: 140927    UPC: 885397000000

G1109P-8-102W is a 9-Port Gigabit Desktop Switch with 8-Port PoE developed by IP-COM. It provides 8 10/100/1000 BASE-TX RJ45 ports. Ports 1 to 8 support IEEE 802.3af PoE standard with each port providing power of 15.4W, or support IEEE 802.3at PoE+ standard with each port providing power of 30W. The whole switch provides power up to 92W. By using CAT5 twisted pairs, it can provide power and transmit data to APs, IP cameras, IP phones, and so on. In addition, all ports support 6 kV lightning protection, Port based VLAN, making your network deployment more convenient and cost-effective.

### Features

- Compliant with IEEE802.3, IEEE802.3u, IEEE802.3x, IEEE802.3ab, IEEE802.3af/at
- Store & forward, share memory, non-blocking architecture
- Supports MAC address self-learning and auto MDI/MDIX
- Provide 9 10/100/1000Mbps auto-negotiation ports with 8-port PoE
- Ports 1-8: IEEE 802.3af/at PoE ports
- Supports full-duplex 802.3x flow control and half-duplex backpressure flow control
- Supports 16K MAC address list, MAC address learning and auto-ageing
- Supports port Inductive Lightning Protection up to 6KV
- Fanless design
- maximum power output of the switch: 92W
- Hardware DIP switch for selection among the Standard, VLAN modes
- Desktop Design
