802.3at Gigabit PoE Injector

PSE30G-AT

SKU: 140951

The PoE injector PSE30G-AT can directly provide dc power to equipment that needs power supply, plug and play, convenient for network construction. PSE30G-AT can auto-start short-circuit function to cut off power supply when facing high current or electricity interruption, to prevent equipment burnout and avoid networking failure caused by electricity interruption or installation error.

#### Features

- Compatible with IEEE802.3, IEEE802.3u, IEEE802.3ab, IEEE802.3af, IEEE802.3at Standard
- Transmission distance up to 100 Meters Overvoltage, overcurrent and overload protection Plug and play
