

Single-Circuit Mechanical Heat Detector - 194F

5604

SKU: 22418 UPC: 783863022470

System Sensor's 5600 series mechanical heat detectors offer a low-cost means for property protection against fire, and for non-life-safety installations where smoke detectors are inappropriate.

The 5600 series offers a full-line of configurations to accommodate a broad range of applications. Both single- and dual-circuit models are available for low- and hightemperature ratings with either fixed temperature or combination fixed temperature/rate-of-rise (ROR) activation. The ROR element of the fixed/ROR models is restorable to accommodate field-testing.

Features

- Single Circuit
- Identification Method on Exterior: Lettering
- Temperature Rating: 194°F (90°C)
- Activation: Fixed Temperature
- UL Protected Spacing – 10 Foot Ceiling*
 - 25 feet x 25 feet (7.62m x 7.62m)
- Easy-to-use terminal screws
- Input Terminals: 14–22 AWG
- A broad range of back box mounting options:
 - Single gang
 - 3.5" and 4" Octagonal
 - 4" square with square to round plaster ring
- Reversible mounting bracket
- Weight: 6oz. (170 grams)
