## 8" 2-Way Down-Firing Ceiling Speakers

IC82

SKU: 33562    UPC: 812348000000

From what we've seen, the IC82 is the most powerful ceiling speaker you can get for its amazingly affordable price. Our team of the world's most experienced architectural speaker engineers really got this one slamming, with bass that's powerful enough for any kind of music—and we're talking tight, tuneful bass that even the pickiest audio enthusiast will like.

That muscular deep bass comes from our rugged 8" polypropylene-cone woofer, which is engineered to move a lot of air—and produce incredible amounts of bass for its size.

You'll swear there's a subwoofer in the system somewhere! But with the IC82, only a very, very hardcore bass fanatic would demand more bottom end.

Our carefully tuned crossover perfectly blends the woofer with our sweet-sounding, pivoting 1" soft-dome tweeter, so you get midrange finesse and outstanding treble clarity along with all that awesome power. Our engineers took special care when tuning the IC82 to make sure it'll sound great everywhere in the room, no matter where it's mounted and no matter where you stand or sit.

8" Polypropylene Woofers 1" Pivoting Silk Dome Tweeters Power Handling: 150 Watts Frequency Response: 40Hz-20kHz Sensitivity: 93 dB SPL, 1 w /1m (3.3 ft) Impedance: 6  $\Omega$  Cut -Out Diameter : 10" Mounting Depth: 4.50 Warranty: Limited Lifetime Individual Package Dimensions (L x W x H, Weight): 13.2 x 11.4 x 11.4 in., 9.85 lbs.
