AX3000 Wi-Fi 6 Dual-Band Access Point

Pro-6-LITE

SKU: 158466 UPC: 885397000000

Pro-6-Lite is a 2x2 Wi-Fi 6 access point which offers an up to 3 Gbps aggregate wireless rate with both the 2.4 GHz and 5 GHz bands. With the application of OFDMA, DL/UL MU-MIMO, and SR (Spatial Reuse), its system capacity has been greatly increased compared with that with 802.11ac. In addition, with the TWT technology, Pro-6-Lite can centrally schedule awakening and sleeping of clients, reducing client conflicts and unnecessary awakenings, and therefore can be used in densely-populated scenarios where large quantities of concurrent access are required.

Features

- OFDMA and Uplink & Downlink MU-MIMO
- 2.4 GHz Band up to 574 Mbps
- 5 GHz Band up to 2402 Mbps
- Covering an area of 150?
