

## High-Flex Polyester Fish Tape, 75

50375

SKU: 147496    UPC: 92644503757

Our 75-Foot (22.9 m) High Flex Polyester Fish Tape is the perfect wire pulling solution where flexibility meets strength. The polyester material provides a highly flexible and lightweight tape compared to steel while the triple strand design delivers increased durability and strength compared to fiberglass. The low friction case and optimized feed angle create a smooth payout and easy retraction. The bright orange strand woven into the triple strand improves visibility for easier locating of the tape.

### Features

- 75-Foot (22.9 m) High Flex Polyester Fish Tape is the perfect combination of flexibility for easy navigation and strength to withstand difficult pulls
- Triple strand polyester fish tape is 4 times more flexible than fiberglass and 8 times more flexible than steel
- Polyester material delivers ultimate flexibility to easily glide around difficult corners or joints
- Triple strand braided tape design creates rigidity to hold shape during payout; improves tape strength and durability to tackle more difficult pulls compared to fiberglass
- Overall lightweight design and optimized feed angle produce a smooth pay-out and retraction, reducing effort and fatigue
- Bright orange strand woven into triple strand tape provides better visibility and locating of the tape in low-light
- Polypropylene case and handle offer high impact resistance
