6.5" Twin-Tweeter In-Ceiling Speaker

IC62TT

SKU: 33567 UPC: 812348000000

The IC62TT is a problem-solver—a way to get stereo sound anywhere with just one speaker. It's perfect for small rooms, spaces like kitchens where you're moving around a lot, and other places where it's hard to get stereo to work. Yet there's no need to combine the stereo channels at the amp—just connect the left and right speaker cables to one IC62TT and you're good to go!

Each IC62TT has two of our sweet-sounding soft-dome tweeters—one for left, one for right. A tough but sensitive 6 ½" polypropylene-cone woofer pumps out powerful lows from both channels. There's no need to worry how you orient the speaker, either. Our team of the world's most experienced architectural speaker engineers built the IC62TT with broad dispersion and voiced it to sound good everywhere in a room, no matter where you stand or sit when you listen.

Our In the Ring toolless mounting system makes the IC62TT even simpler to use. You can leave the screwdriver in the van—in fact, you don't need any tools at all! Just place the ring in the hole, squeeze each of the four mounts between your fingers and your thumb, then twist the speaker into the ring. It's a simplicity you'll especially appreciate when you're working in tight spaces.

6.50" Polypropylene Woofer Dual 1" Fixed Silk Dome Tweeters Power Handling: 80 Watts Frequency Response: 50Hz-20kHz Sensitivity: 93dB SPL, 1 W/1 m (3.3 ft) Impedance: 6 Ω Cut-Out Diameter: 8.75" Grille (outside) Diameter: 10" Mounting Depth: 3.75" Warranty: Limited Lifetime Individual Package Dimensions (L x W x H, Weight): 12.7 x 12.3 x 7.1 in., 5.1 lbs. Product Dimensions (L x W x H, Weight): 3.625 x 10 x 10 in., 4.5 lbs.
