## 10G Rated Waterproof RJ45 Panel Mount Coupler for STP/UTP Cables

S45-WP3201

SKU: 145399

The S45-WP3201 is an IP68 rated 10G shielded RJ45 panel mount coupler. Essential addition when extending a network to an outdoor application. Simply insert into a surface-mount box to create a watertight seal. The waterproof cap protects the RJ45 coupler from dust, debris, and moisture when not in use. Built to endure water submersion at any depth.

### Features

- CAT6a performance, backward compatible for CAT5e/Cat6
- Works with both shielded and unshielded connections
- Easy to assembly, no tools required
- IP68 Waterproof Rated with UV resistant
- Can be used above or below ground
- PoE Rated, up to 90W
- Recommended for indoor and outdoor applications
