

Nimbus Acoustic Ceiling Cloud Kit - Black

Z840 1225 00

SKU: 156806 UPC: 676101000000

Keep room echo and reverb at bay with the black Nimbus Acoustic Ceiling Cloud Kit from Primacoustic. Designed to be suspended from the ceiling, the two 24 x 48" panels included in this kit absorb sound and trap reflections from the ceiling to improve speech intelligibility and facilitate communication in venues such as restaurants, libraries, and boardrooms. Several Nimbus clouds may be installed in an array to control noise in large spaces.

Features

- Reduce Room Echo and Reverb
- 1.5" Thick High-Density Glass-Wool Core
- Encapsulated in Micromesh, Resin Edges
- Covered in Broadway Fabric
