

Simply45[®]

Pro Series Cat6 STP Pass-Through RJ45
Modular Plug with Cap45 (Jar of 50)

S45-1650P

SKU: 145383

The S45-1650P is a single piece fully shielded with an external ground pass-through RJ45 modular plug for shielded (STP) LAN cables. The integrated High Low Staggered design requires a No-load bar. This RJ45 design improves NEXT performance by reducing the length of untwisted wires inside the plug and is highly recommended for all PoE and Data applications. Supports performance standards: ANSI/TIA 568.2-D for Cat6/6a; ISO/IEC 11801 Class Ea and E. Supports 10GBaseT performance applications over shielded twisted pair cables. Works in all compliant RJ45 modular plug sockets.

Features

- Terminate fascicle of network cables with this connector
- Contact mating area is Gold plated for longer durability
- Improved Crosstalk Performance
- Color Tinted RJ45 Modular Plugs
- One-Piece Plug
- cUL Listed, PoE/PoH Rated
- Compliant to Industry Standards: ANSI/TIA 568.2-D for Cat6 and Cat6A F/UTP, 1096-A; ISO/IEC 11801 Class Ea, E; 60603-7; 8877:1992; FCC
