

Creator Series Medium In-Ceiling Speaker

CSC1M

SKU: 147650

This medium Tier 1 in-ceiling loudspeaker is a two-way model featuring a C-CAM mid-bass driver and C-CAM tweeter. It has a cut-out dimension of 212 mm, revolutionary patented Quik-Link speaker cable connector and Tri-Grip II for quick, simple, reliable and strong installation and fitting.

This medium-sized Tier 1 in-ceiling loudspeaker is designed for cost-effective installations, where product simplicity and solid acoustic performance is required. It is a two-way model featuring a C-CAM mid-bass driver and C-CAM tweeter. The performance benefit of having both within a single design means greatly improved clarity, wider dispersion into the listening environment, and clear lifelike high-fidelity sound – of the quality you'd expect from any Monitor Audio passive box loudspeaker. It has a cut-out dimension of 212 mm and uses the patented Quik-Link speaker cable connector, which revolutionises the ease and speed of speaker installation. Tri-Grip has also been evolved for simple, reliable and strong fitment.

Optional square or premium grille can be used with this model.

Features

- Ideal for cost-effective installations, where product simplicity and solid acoustic performance is required
