

BLUESOUND

## Wireless Multi-Room High Resolution Smart Soundbar - White

PULSE SOUNDBAR+ WHT

SKU: 134516    UPC: 786357000000

The Bluesound PULSE SOUNDBAR+ is an all-in-one high-resolution wireless streaming audio system that brings all your entertainment sources to life, delivering high sound quality to TV shows, movies, games and more. The PULSE SOUNDBAR+ is powered by BluOS, a wireless high-resolution multi-room music ecosystem, capable of streaming local music libraries, music services, internet radio stations, live sports broadcasts, audiobooks, and more with intuitive control using HDMI with eARC and the BluOS app for your smartphone, tablet, or laptop. The PULSE SOUNDBAR+ will playback your movies, games, concerts and sports in true high-fidelity sound using a 120W DirectDigital Hi-Fi amplifier design, powering 8 dynamic drivers in its aluminum enclosure. Stream any music service or library from your smartphone, tablet or laptop in high-quality with aptX HD Bluetooth. Combine with a PULSE SUB+ and a pair of PULSE FLEX 2i's to create the ultimate, low-latency surround sound experience. HDMI eARC input makes controlling your audio entertainment easier than ever. Stream directly from Apple devices with AirPlay 2 or ask Siri to play songs & playlists from Apple Music. Easily program IR remote commands and set listening preferences with the BluOS Controller app. With Alexa, Google Assistant, and Siri you control your wireless music system hands-free using just the sound of your voice. Experience an immersive soundstage with Dolby Atmos 3D audio. High Resolution playback available for select music content (up to 24-bit / 192kHz) depending on the source.
