High Power AC3100 Wireless Controller System w/ US Power Cord

XWS-2620

SKU: 147615

Quickly set up a small wireless network with the XWC-2000 Wireless Controller and two XAP-1610 Wireless Access Points. With a setup wizard for easy configuration, the XWC-2000 Wireless Controller provides centralized deployment and management of up to 32 Luxul access points. Luxul Roam Assist™ technology offers seamless active roaming within the wireless network. The XAP-1610 Wave 2 Wireless Access Points provide high-output power and 802.11ac 4x4 MU-MIMO dual-band Wi-Fi to deliver combined data rates up to 3167 Mbps* and outstanding wireless performance. Beamforming technology targets the signal to the devices actively communicating.

XWC-2000 Wireless Controller Features:

- Simple central configuration and control of up to 32 Luxul access points
- Setup wizard for quick deployment
- Secure guest networking
- Roam Assist™ active roaming
- Durable 1U metal enclosure for rack mount or desktop use

XAP-1610 Wireless Access Point Features:

- High signal strength, targeted exactly where it's needed
- Concurrent dual-band operation (2.4GHz and 5GH)
- VLAN support
- 4x4 Wave 2 technology
- Combined dual data rate up to 3167 Mbps*
