

Essentials 4K60 4x1 HDMI Switcher

EXP-SW-0401-H2

SKU: 110397 UPC: 814303000000

The WyreStorm EXP-SW-0401-H2 is a powerful plug-and-play 4K switcher solution. With up to 18Gbps pure HDMI support, which allows up to four 4K HDR sources to be routed to a single display. The EXP-SW-0401-H2 is capable of auto switching, giving the user the convenience of simply turning on their favorite device without the requiring manual intervention. Furthermore, the EXP-SW-0401-H2 is equipped with signal compensation, allowing an extender or splitter to connect to its output without degrading or delaying the signal.

Features

- A true plug-and-play HDMI switcher, supporting up to four 4K HDR sources to one screen
- Compatible with the latest HDR standards, such as HDR10, HLG and Dolby Vision
- HDCP 2.2 compliant
- Automatic input cable equalization and signal regeneration eliminates signal degradation
- Slim design allows discrete placement, but sleek enough to show off in open spaces
