

F-Splice Adapter 3 GHz, 10 Pack

VDV814-609

SKU: 40148 UPC: 92644581458

The Klein Tools F-Splice adapter provides high bandwidth (up to 3 GHz) for standard, high-definition and satellite applications. Its features help improve system performance and provide easy installation, higher return loss and higher shielding. (Higher shielding prevents ghosted and grainy images). Also, the patented gripping mechanism maintains optimal signal strength.

Features

- High bandwidth (up to 3 GHz) for standard, high-definition and satellite applications
- Patented gripping mechanism for optimal signal strength
- <0.2 dB insertion loss to maintain signal strength
- > 35 dB return loss for less picture distortion and faster signal speeds
- 75 ohm capacity
- Exceeds SCTE standard
