TOOLS** 

Fiberglass Fish Tape w/ Spiral Leader,  
200'

56014

SKU: 490    UPC: 92644560149

Designed for even longer conduit runs, the Klein Tools 200-foot (60.96 m) Fiberglass Fish Tape is flexible enough to glide over existing wires in crowded conduit, but stiffer than other non-conductive fish tapes. The 17-Inch (432 mm) case diameter allows user to reel in 10-percent more tape in a single revolution than 16-Inch (406 mm) diameter fish tape cases, saving time and effort.

#### Features

- Permanent, laser etched 1-foot increments on the tape allow you to more accurately measure the depth of conduit runs and determine the amount of tape left to pay out
- Non-conductive, fiberglass fish tape slides easily over existing wires and through multiple bends
- The lightweight and strong fiberglass tape resists harsh elements and is strength rated up to 500 pulling pounds
- The 17-Inch case diameter means you can reel in 10-percent more tape in a single revolution vs. a 16-Inch (406 mm) case
- Made in USA
- Durable 7-Inch leader helps push through crowded conduit
- Raised finger grips help transfer 100-percent of the winding power from your hand and fingers
- The unique sloped handle optimizes the position of your hand for quick hand-over-hand rewinds and allows a more level payout of tape on the backswing while feeding conduit
- Repair kit available (Cat. No. 56115)
- Replacement eyelets (Cat. No. 56116) and spiral leaders (Cat. No. 56120) available
