

Simply45[®]

External Ground Crimp Tool for Small and Large Cables

S45-C360

SKU: 145391

Simply45[®] External Ground Crimp Tool for Large and Small Cables. The Simply45[®] External ground crimp tool provides two 360° cavities to crimp most shielded connectors with an external ground tab. The S45-C360 allows the installer to properly complete the grounding process on shielded cables with ease while providing reliable terminations with professional results.

Features

- Recommended for shielded connectors with ext. ground tabs
- Dual cavity covers a wide range of cable jacket OD's
- Cable jacket ranges 0.215" (5.5 mm) to 0.335" (8.5 mm)
- Compatible with most CAT5e/6/6a/7/7a shielded cables
- Locking tab to keep tool closed for easy storage
- Hardened high carbon steel for durability and long life
