

## Caseta Smart Switch 3 Way Kit, w/ Remote & Bracket - White

P-PKG1WS-WH

SKU: 126968    UPC: 784277000000

Ensure you and your family always enter a well-lit home. Use the smart switch to set your front porch lights to turn on at dusk, ensuring your home is not dark when you return. Create schedules to turn lights on and off at set times to best fit your everyday routines and activate custom lighting scenes with just the touch of a button. Schedule your outdoor lights to turn on every night, as the sun sets - even when the seasons change and you gain or lose an hour. The geofencing feature allows you to never have to worry that you forgot to turn off the lights - set your lights to instantly turn off the minute you leave your home. (Smart bridge required for schedules and geofencing.) Caseta allows you to control your lights, your way - use the free app, your voice (voice assistant and smart bridge required), the wireless Pico remote, or the switch at the wall itself. The smart switch also allows you to control multiple styles of bulbs at once - control your deck and patio lights all at once to transform your outdoor living space for your family and guests. For added convenience, use your smart switch with the included wireless Pico remote to turn your lights on or off with the simple touch of a button from anywhere in your home. Add an extra point of control and mount your Pico to virtually any surface with the included Pico wall mount bracket, no cutting holes or pulling wire required. Neutral wire required.

### Features

- Works w/Alexa, Google Assistant, Ring, and more (hub required)
- Create a 3way application by mounting the Pico to almost any wall
- Easy to use, simple to set up; install in as little as 15 minutes
- Includes: (1) Lutron Caseta smart switch, (1) wireless Pico remote, (1) wall plate adapter and (1) wall plate; neutral wire required
- Caseta connects with more leading smart home devices - including Alexa, Apple Home Kit, the Google Assistant, Ring, Serena shades and Sonos - than any other smart lighting control brand (Caseta Smart Hub required)
- Transform your outdoor living space for family and guests by controlling patio/deck lights. Create schedules to turn lights on/off at set times to best fit routines; activate scenes with the touch of a button (Caseta Smart Hub required)
- Works with up to 600W incandescent/halogen/ELC/MLV, 5-amps of LED/CFL or 3-amps of ceiling or exhaust fans. Neutral wire required for switch
