

8" High Performance In-Ceiling Surround Speakers

80 F/X-RT

SKU: 23819 UPC: 747192000000

Your favorite film soundtracks materialize with the crack of gunfire from behind, or the patter of footsteps across the room. While the Polk 80F/X-RT surround speakers fill your home theater with vibrant sound effects, they virtually vanish into the ceiling.

These stealthy speakers are designed specifically to produce an enveloping rear soundstage, each one equipped with dual 3/4" silk/polymer tweeters and an 8" woofer. High-quality construction keeps the drivers in rigid alignment, and practically eliminates muddying resonance.

Features

- Frequency response 50-25,000 Hz (-3dB)
- Dual 3/4" silk/polymer dome tweeters
- 8" Dynamic Balance® woofer
- Handles up to 100 watts
- Sensitivity 87 dB
- 8-ohm impedance
- Wall distance switch for flexible mounting
- Paintable Sheer-Grille™ for stealth installation
- Cutout: 9-3/8" diameter
- Mounting depth: 4-3/4"
