## AC2600 Tri-band Cable-Free WiFi System

EW12

SKU: 140913

EW12 is an AC2600 Tri-band Cable-Free WiFi System(Mini Basestation) from IP-COM specially designed for offices, restaurants, and other places. With advanced true Mesh technology and innovative built-in antennas design, enterprise users can adjust the quantities of EW12 according to the application area and combined with EW12 to form a distributed Mesh network without a dead zone. EW12 supports router mode and AP mode, which can meet the requirements of a small project with Mesh network, or partial Mesh network for large projects. The device adopts a full gigabit network interface design with maximum support for single WAN. It integrates various enterprise functions such as intelligent bandwidth control, WEB authentication, SMS authentication, etc., and can be applied to a variety of application scenarios.

### Features

- 2600Mbps 11AC Wave 2 WiFi
- 1300Mbps dedicated backhaul link
- 2 Gigabit Ethernet ports, maximum support 1 WAN port
- Support mesh network technology
- Support intelligent bandwidth control, fast roaming, seamless roaming
- Support non-standard PoE module power supply
- Support wall mount/ceiling mount/pole mount/desk mount installation
- Support IP-COM IMS APP management and maintenance
