## 10" Ezlo Protect Touchscreen

EZLTS-US

SKU: 149695    UPC: 850011000000

Add a convenient location to control your Ezlo security and automation system with the Ezlo 10" Touchscreen! This Android powered 10" touchscreen tablet controller is equipped with the Ezlo Protect app pre-installed, giving you instant and complete access to your Ezlo security and automation network. 4GB of RAM enables the 10" Touchscreen to coordinate with hundreds of connected devices on your Ezlo network and dozens of automated routines, along with other Android apps available on the Google Play store. The 10" Touchscreen includes a built-in camera and 3.5mm jack with microphone support to enable video communication with connected video doorbells, see footage from networked security cameras, and communicate with other 10" Touchscreens on the same Internet network. Use the 10" Touchscreen to configure automation or security scenes, see live or recorded footage, review the status of devices within your system, manage notifications, and more.

### Features

- 10" Android-powered touchscreen controller with Ezlo Protect app pre-installed
- Build custom automation scenes with MeshBots based on your preferences, schedule, and needs for individual or grouped devices
- 3.5mm jack input supports headphone and microphone connection for audio communication with a video doorbell or additional 10" Touchscreens
- Check on live feed from connected cameras or video doorbell or review saved footage
- Mounts onto single-gang wall box or can be placed onto freestanding tablet mount
