## 5-Port Cloud Managed PoE Router

M20-PoE

SKU: 158461    UPC: 885397000000

M20-PoE integrates router, PoE switch, and access controller altogether. Dedicated 4x PoE+ Ports for PoE-supported devices such as access points, IP cameras, and IP phones, lowering infrastructure costs for small businesses. M20-PoE supports pass-through traffic and multiple VPN protocols, including IPsec, PPTP, and L2TP. Intelligent load balancing and link redundancy between multiple WAN ports.

### Features

- Integrates router, PoE switch, and controller altogether
- Dual-Core CPU provides 1Gbps forwarding performance
- Up to 4x WAN Ethernet Ports? Support load balancing
- 4x 802.3at/af-compliant PoE+ ports yield a total power supply of 55W\*
- Supports IPsec VPN, and L2TP/PPTP VPN connections
