

EZ-RJ12/11 Connector with Standard Tab - 50 Pack

100026C

SKU: 42266 UPC: 899740000000

The Platinum Tools EZ-RJ12/11 Connector with Standard Tab, available in a clamshell-wrapped pack of 50, lets you terminate your solid and stranded wires so you can create RJ12 or RJ11 cables for telephone and security installations. To simplify twisted-pair terminations, each connector features an EZ pass-through design that allows you to insert the wire through the connector and out the front. This design also enables you to verify the proper wiring order before you crimp.

Features

- Easy Terminations with Reduced Scrap
- Designed for Telephone & Security Wires
- Solid and Stranded Wire Compatible
