

Sniff-It 3 Non Contact AC Voltage Detector

9606

SKU: 12883 UPC: 614395000000

The Triplet Sniff-It 3 is a high-performance AC Voltage detector with adjustable sensitivity that has a wide measurement range of 25 to 1000ACV, Dual Color Tip to indicate low/high voltage, built-in flashlight, and durable over-mold. The high sensitivity allows it to detect low voltage AC wiring commonly found in doorbell circuits, thermostats, control circuits, and video surveillance camera power. The Sniff-It 3 is designed for industrial applications with its impact and drop resistance in a sleek ergonomic design, and the easy to use thumbwheel helps dial-in detection range. Includes (2) AAA batteries. CAT III safety rating.

Features

- Detects AC Voltage without making contact with Variable Sensitivity from 25 to 1000 Volts AC
- Light flashes and beeper chirps when AC voltage is present and flashes and beeps faster as AC voltage is approached
- Dual Color Tip to indicate low or high voltage
- CAT III safety rating

Voltage Range	25 to 1000VAC
Frequency Bandwidth	60Hz
Sensitivity	Adjustable
Indicators	audible and visual
Power	(2) AAA batteries
Dimensions	6.25 x 1 x 1" (157 x 25.4 x 25.4mm)
Weight	1.6oz (45.4g)
