Slim Mini UV Rechargeable Pocket Light

NEB-POC-1005

SKU: 159484 UPC: 645398000000

NEBO Slim Mini UV is an ultra-slim EDC pocket light with white and Dual UV-A output modes. The combination of 365nm and 395nm ultraviolet LEDs provide blended illumination and fluorescence of close range objects. The Slim Mini UV has two levels of white output for general illumination. This handy pocket light has a magnetic base for attachment to metal surfaces, a rear pocket clip and integrated USB-C charging port.
