HRSi 12" Subwoofer

HRSi-12

SKU: 66892

Design technology meets premium performance The HRSi Series of SpeakerCraft® subwoofers takes the innovation of Sunfire® subwoofers and builds on that legacy. Elegance and performance are crafted into a compact space efficient high powered cabinet. All in a familiar yet modern design maintaining the distinguished 5 layer piano black lacquer finish.

A high excursion, fiberglass reinforced 12" woofer utilizing EMF with high-motor force design, this combination creates increased linear output with control. App based tuning includes auto-EQ function with digital room correction and DSP.

Features

- 12" fiberglass reinforced woofer
- High-Power Amplifier. The 1000W Active Driver is backed by a matching amplifier powering the bass output.
- High Back EMF Fiberglass Drivers. Ultra-strong fiberglass cone with a huge motor force to battle high pressures on the woofer.
- Luxury Style. High-gloss lacquer finish in striking Piano Black coats a 1" MDF Cabinet.
- Auto Setup. Easily setup and configure the equalizer settings with the Sub Station app.
- Flexibility. The optional wireless audio kit lets you place the subwoofers anywhere in a room for immersive listening.
- Dimensions: (L x W x H) 13.8 x 14.2 x 14.6 in
- Weight: 41.9 lbs
