## OE5 One 5.25" Indoor / Outdoor Speaker - Black

ASM80516

SKU: 66804    UPC: 664254000000

For modest sound requirements, you'll enjoy a wonderful performance on your balcony as you overlook the bright lights of your community.

The Outdoor Elements series includes eight different models to address a multiple of different exterior applications. Depending on the need, you can choose from speakers that offer five-inch, six-inch or even eight-inch woofers. Loaded into ported enclosures to dramatically enhance low-frequency response, these woofers provide deep full bass to compliment any type of music.

The mid-range and high frequencies are produced using advanced cone or dome drivers depending on the model. All drivers are made of space-age polymers, injection molded graphite or aluminum and are selected for sonic purity and dynamic performance. All of our Elements line of speakers are available in black or white.
